Seventh Workshop on Forging Partnerships for Statistical Training in Asia and the Pacific: Effective Collaboration for Increasing Availability, Access and Use of Quality Gender Statistics

10—11 September 2018 | Chiba, Japan

The workshop was attended by twenty four participants from sixteen countries and two international organizations as well as SIAP staff.

Participants of the Workshop agreed with the establishment and the terms of reference (TOR) of the Subgroup on gender statistics in the Network for the Coordination of Statistical Training in Asia and the Pacific.

Fourth Meeting of the Network for the Coordination of Statistical Training in Asia and the Pacific

12 September 2018 | Chiba, Japan

In September 2013, the Bureau of the Committee on Statistics established the Network for the Coordination of Statistical Training in Asia and the Pacific, with a mandate to act as a facilitator of information-sharing and of coordination among statistical training institute in the region.

One of the key strategies adopted by the Network to carry out its mandate is to establish subgroups that look at training needs and challenges for specific statistical domains. As of 2018, the 26 member Network has established two such subgroups— one on agricultural and rural statistics and another on economic statistics.

The fourth meeting of the Network for the Coordination of Statistical Training in Asia and the Pacific was held in Chiba, Japan on 12 September 2018, attended by twenty five participants from sixteen countries and two international organization as well as SIAP staff.

The Network discussed and approved the TOR of the Subgroup on gender statistics, reviewed the possible development of the Training Needs Assessment Survey and discussed the modality of accreditation of training on official statistics.

The Network also observed Global Network of Institution for Statistical Training (GIST) and recent discussion on economic statistics.

TAPOS

Group Training Programme on Theory and Practices in Official Statistics for Monitoring Sustainable Development Goals (SDGs)

27 August - 7 December 2018 | Chiba, Japan

This course was jointly organised by the Institute and the Japan International Cooperation Agency. Twenty three statistical officers from twenty three countries are attending this course. It is designed to strengthen the capacity of entities belonging to national statistical systems, by providing statistical staff with training that aims at increasing their knowledge and improving their skills to produce data, to apply statistical methods in order to produce official statistics as well as indicators and to interpret and to use these for monitoring progress in achieving the SDGs.

Events Highlights

Sub-regional Training Course on Sampling Methods for Producing Core Data Items for Agricultural and Rural Statistics

13-17 August 2018 | Suva, Fiji

Seven statistical officers from National Statistical Office and nine from Ministry of Agriculture from eight countries attended the course.

This sub regional training course provided technical guidance on the selection and application of appropriate sampling methods for producing the minimum set of core data items for agricultural and rural statistics.

Training Programme on Climate Change Related Statistics and the System of Environmental-Economic Accounting for Pacific Island Countries

17 - 21 September 2018 | Nadi, Fiji

Nineteen officers participated from Pacific Islands countries.

The workshop provided an opportunity to learn basic concepts and frameworks, with hands-on sessions, on statistics related to climate change, with the overall aim to strengthen capacity to produce a set of statistics, including indicators, to inform climate change policy decisions at the national and international levels.

Coming up Events

- ⇒ Regional Training Course on Education-Related SDG indicators [15—19 October 2018] Daejeon, Republic of Korea]
- ⇒ Regional Training Course on the Measurement of Post-Harvest Losses in Asia and the Pacific [22—24 October 2018 | Chiba, Japan]
- ⇒ e-Learning course on Poverty Statistics for SDGs [1 - 30 November 2018]
- ⇒ Fifth Regional Training Course on the National Strategy for the Development of Statistics (NSDS) and Advanced Data Planning Tool (ADAPT) [6—9 November 2018 | Chiba, Japan]
- ⇒ The Workshop on Gender Statistics for Sustainable Development Goal Indicators [12—16 November 2018 | Tokyo Japan]
- ⇒ Regional Course on SDG Indicators: Measuring decent work in the context of the SDGs [19—22 November 2018 | Chiba, Japan]
- ⇒ Regional Course on SDG Indicators under FAO Custodianship [26—30 November 2018 | Chiba, Japan]
