

Developing/reviewing indicator framework for national development plan in Georgia

Activity & time Lead Agency partners products

After the adoption of the post 2015 development agenda held in New-York in September of 2015, Government of Georgia took an initiative to contribute to sustainable development through volunteer efforts as a continuation to the Millennium Development Goals.

Monitoring & evaluation

- SDG Monitoring and Evaluation system will be established at both central and local levels to track progress: annual reporting cycle will be upheld
- GoG intends to set-up thematic working groups on Human Rights, Social Inclusion, Economic Growth and Environment Protection issues, with the aim to establish complementary national indicators and adapt global ones to suit the national priorities.
- Thematic meetings with private sector to help them understand how they can influence SDGs to drive good practices and growth opportunities.

Future Steps

- Active participation in thematic working groups and meetings
 - Prioritization of non-produced indicators
 - Strengthen national statistical capacities and data collection (including administrative data and Big data)
 - Organize and conduct supplementary sector researches
 - Continuing active cooperation with main stakeholders
-
- Due to the identified statistical gaps, supplementary sector researches will be organized and conducted, though this process will face difficulties in terms of additional financial resources. – international assistance is needed
