- Identification, discussion and resolutions of statistical issues  
Establishment/identification of focal persons on SDGs in various data source agencies
- Improving data dissemination on SDGs (e.g. *Development of a SDG Webpage*)
- Information built in existing surveys (e.g. *indicator 1.4.2: percentage of adult population with tenure rights to lands*)
- Exploring possibility of using Big Data to bridge data gaps
- Optimal use of information technology for wider utilization and dissemination of the SDG indicators (*USE of Tablet computers to improve timeliness of statistics*)
- Further coordination, collaboration within and among countries
