Closing Ceremony on the Statistical Analysis of Disaggregated SDG Indicators for Inclusive Development Policies course

[3 June - 12 July 2019 | Chiba, Japan]

Closing ceremony of the course was held on July 12 to celebrate the accomplishments of the twenty-one participants who completed the six-week course on disaggregating SDG indicators by various dimensions. Earlier during the week, participants presented their analysis as part of project work and proposal for improving their work in their home country utilizing small area estimation and other techniques learnt during the course. Ashish Kumar Director, SIAP expressed gratitude to participants and lecturers for dedicating their time in Japan to improve the statistical capacity of national statistics systems across the globe. Professor Parthasarathi Lahiri from University of Maryland, USA thanked the participants for their active interest in project work.

Outstanding Achievement

SIAP was pleased to present the 2019 Kawai Prize for Outstanding Achievement to Ms. Dhiar Niken Larasati from Directorate of Analysis & Statistical Division, Statistics Indonesia and participant of the course. Ms. Niken Larasati expressed her gratitude for the program and the lecturers' assistance throughout her project work. Closing remarks on behalf of the participants were given by Ms. Raz Jamal Fatah from Iraq who recognized and thanked JICA and SIAP's support during the past six weeks.

The ceremony was followed by a reception with Japanese cuisine and pastries. Representatives from Chiba Prefecture also participated and enjoyed celebrating the occasion. SIAP and JICA expressed their happiness to have supported the participants in expanding their technical expertise and looked forward to receiving updates on the progress of their home-country projects.

Coming up Events

Second Group Training Programme on Theory and Practices in Official Statistics for Monitoring Sustainable Development Goals (SDGs)

[19 August - 29 November 2019 | Chiba, Japan | in collaboration with JICA]

It is designed to strengthen capability of entities comprising the national statistical system in developing countries to produce, interpret and disseminate key official statistics, with a particular focus on data and indicators for monitoring of SDGs in the agenda 2030.

Twelfth Basic-level e-learning Course on System of National Accounts (2008 SNA): Integrated Transaction Accounts

[2 - 30 September 2019 | Online]

The course will provide a strong foundation for the practical understanding and application of the 2008 System of National Accounts in the compilation of key national accounts aggregates. The objectives of the course are to provide an overview of the SNA 2008 and to demonstrate methods and techniques for compiling transactional accounts in the SNA 2008.
