22-23 February 2023

These webinar series focus on the current status of the implementation, challenges affecting the implementation and country practices to these challenges.

Workshop

Regional Training Workshop on an Accounting Approach to Climate Change Statistics and Indicators

11-14 April 2023

The workshop, organized by the United Nations Statistics Division (UNSD) and the UN Statistical Institute for Asia and the Pacific (UNSIAP), with the support of the Office of the Director-General for Policy Planning on Statistical Policy, the Ministry of Internal Affairs and Communications of the Government of Japan, aims to further build capacities in the region for the compilation of SEEA accounts relevant to climate change.

Upcoming

Introduction to International Recommendations on Refugee and IDP Statistics

13 March-21 April 2023

This course introduces the "International Recommendations on Refugee Statistics" (IRRS) and the "International Recommendations on IDP Statistics" (IRIS). These sets of recommendations were endorsed by the United Nations Statistical Commission in 2018 (IRRS) and 2020 (IRIS).

Increasing engagement around data and statistics - identifying and responding to user needs

27 March-28 April 2023

User engagement is the process of conducting a dialogue with users of official statistics to understand their needs and improve the products, services and operation of a statistical organization accordingly. In this course participants will learn what user engagement is and how to identify users (including new and potential ones).

e-Learning system

SIAP offers online learning with a dedicated team of experts. Training programmes focus on all areas of official statistics and target national statistical systems.
