

Why and how we need to transform how national statistical offices engage with key stakeholders: *Indonesian experience*

SURYAMIN

Chief Statistician bps

Email: suryamin@bps.go.id

*12 th Management Seminar for Heads of NSO in Asia & the Pacific
UN University, Tokyo, Japan, 2 December 2015*

Location of 33 BPS Provinces, 500 Districts, 17.500 islands, 16.000 staffs

KEY CHALLENGES AND OPPORTUNITIES

1. Data needed increasing sharply

KEY CHALLENGES AND OPPORTUNITIES

2. Data producer also increase in quantity and quality

KEY CHALLENGES AND OPPORTUNITIES

3. Big Data:

- Benefit vs harms/lost
- Specific information vs target population

Smarter
Healthcare

Homeland
Security

Traffic Control

Manufacturing

Multi-channel
sales

Telecom

Trading

Quality

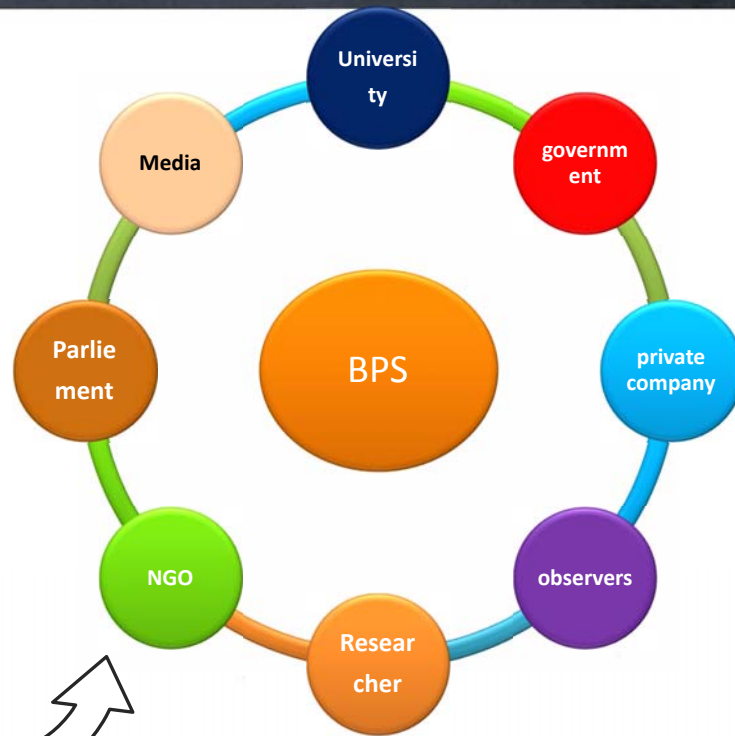

OUR STRENGTHS

NSO as National Statistical System coordinator supported by:

1. National law
2. High quality of Human Resource
3. High quality of ICT
4. High quality of statistical procedures
 - Methodology, field operation, monitoring quality, processing data dissemination procedure
 - Coverage: national, regional and district

Then our (NSO) task to:

1. Increase quality of data
2. Increase quality of public service (better, easier, faster and cheaper)-(Target BR)
3. Increase quality of HR (target of BR) and ICT
4. Increase communication, coordination and socialization with stakeholders (Statistics Law)

The right means of communication is essential

- **Effective communications** will help address the challenges. It is thus fundamental to the success of the realisation of NSO vision and mission.
- **The right strategy** for communicating statistics would also help the NSO gain political support and wider acknowledgment from its key stakeholders

Thank You
