 - Virtual TOT was organized with SIAP and ESCAP
 - Accreditation and inclusion of members in repository

The screenshot displays the UN Women Women Count website interface. At the top, there are navigation links for FEATURES, NEWS, WOMEN COUNT, LIBRARY, and DATA. The main content area features a sidebar with a list of modules from Module 1 to Module 11, and an Annex. The selected module, Module 1, is titled "What is gender data and how to use it for SDG Monitoring?". Below the title, there are tabs for Overview, Who is it for?, and Training materials. The main text of the module states: "This is an introductory module on gender statistics targeted to both experts and non-experts. No advanced knowledge of statistics is necessary. However, it would be good for the learner to have an idea of what the Sustainable Development Goals (SDGs) are, including their targets and indicators." Below the main text, there is a section titled "M10 Communicating Gender Data" with a "RESOURCES" tab. This section includes a video player for "Communicating Gender Data" with a "START" button and a list of related resources such as "OECD. 2007. Data and Metadata Reporting and Presentation Handbook." and "UN Women. 2019. Visual Communication Guidelines." The footer of the page includes logos for ESCAP, SIAP, UN Women, and Women Count, along with a "NEXT" button.
