

 **Conducted**

**E-learning course on Health Statistics for Monitoring Sustainable Development Goals (SDGs) 2022, From 4 July to 12 August**

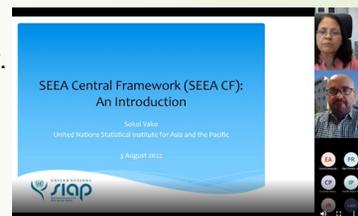

This course was organized jointly with the World Health Organization (WHO). The objective of this e-learning course is to address capacity gaps in health statistics by providing a general understanding of the basic concept, methods and framework required to compile and monitor the health and health related SDG indicators.

**Currently Running**

**E-learning course on Introduction to the System of Environmental Economic Accounting (SEEA)-Central Framework, From 1 August to 9 September 2022**

This course introduces the SEEA Central Framework, the international statistical standards for measuring the interactions between the environment and the economy. By providing an internationally agreed standard with agreed concepts, definitions and classifications, the SEEA is an invaluable tool for compiling integrated information on the economy and the environment. The SEEA uses concepts, definitions and classifications consistent with the SNA in order to facilitate the integration of environmental and economic statistics. By doing so, the SEEA allows users to develop indicators (including SDG indicators) and conduct analysis on the economy environment nexus.

**Self-Paced Course**

-  Second Online Course on Crime Statistics from a Gender Perspective
-  Principles of Machine Learning for Official Statistics and SDGs
-  Using gender data for analysis, communications and policy making in the context of SDG monitoring and beyond
-  Data Visualization for Official Statistics and SDG Indicators

**Upcoming**

**E-learning course on Foundational course on Statistical Business Register, From 26 September to 11 November 2022**

This course is designed to provide a strong foundation for the concepts, methods and framework required to build high-quality and viable SBRs. This will facilitate the international harmonization of economic statistics in terms of coverage, statistical units, and frame methodology.

**Deadline for nominations : 20 September 2022.**

**SIAP wait for your participation!**
