

Action Area A

Azerbaijan

Uzbekistan

Turkey

A. User engagement and investment in statistics

1. Any comments on the content of the Collective Vision?
 - Content is clear and understandable.
2. What are the collaborative activities (regional or sub-regional) that can support national efforts in reaching the signposts?
 - We need methodological support from international organizations and other statistical institutions etc.
 - International conferences, remote training seminars etc.
3. What in particular can statisticians, planners or UN teams do to implement the Collective Vision?
 - Planners need new indicators
 - Statisticians produce new indicators
 - UN Teams provide guidelines, conferences, consultations. So we can exchange our experiences. We open cooperation with the international organizations.
