

Sub-regional Workshop on Data and Statistics for Sustainable Development Goals (SDGs)
26 – 30 September 2016, Almaty, Kazakhstan

Mapping logframes: two step approach

Arman Bidarbakht Nia
Statistician, Statistics Division (UN-ESCAP)

Current practices

- Data availability assessment
- Mapping national goals/targets on SDGs
- Identifying relevant SDG indicators
- Developing national SDGs
- ... ?

How SDGs can help us?

- Shared development concerns
 - A checklist? Benchmark?
- Crafted through a consultative process
 - Learn goal/target setting?
 - Assess our goal/targets?
 - Propose some new targets under existing goals?
 - Propose some policies/ means of implementation?
 - Learn indicator development?
 - Propose indicators under our existing targets?
 - Add already compiled indicator to your Dev plan
 - In general, “**Calibrating**” our national plan & indicators?

How do we benefit most?

A two step mapping: SDGs serve us to

- ❖ Re-think our national logframe
 - ❖ By mapping them on SDGs and other global/regional goals/targets
- ❖ Develop an indicator framework under national logframe
 - ❖ By mapping indicators
