

Session 2.3&3.3- Small group activity

Discussion points: session 2.3

- 1) Identify a state **policy related** to informal economy
- 2) Identify **indicators required** for formulation and monitoring the implementation of state policy
- 3) What are “**existing**” and “**proposed**” data sources for required indicators
- 4) What are measurement **gaps/challenges** in existing data collection procedures? (*such as absence of relevant questions, under-coverage, reporting errors, ...*)
- 5) Propose **modifications** in existing procedures or new data collection methods to capture special categories.

Discussion points: session 3.3

- 1) What are major groups and specific characteristics of “**special categories of workers**” in your country?
- 2) What are **measurement gaps/challenges** in existing data collection procedures related to special categories of workers ? (*such as absence of relevant questions such as “place of work”, under-coverage, reporting errors, ...*)
- 3) Propose **modifications** in existing procedures or new data collection methods to capture special categories.
