Background

- Following the adoption of 17 Sustainable Development Goals (SDGs) of the 2030 Agenda for Sustainable Development by the world leader in September 2015, the UN Statistical Commission Meeting encouraged the coordination between national statistical system and international organization in order to ensure :
 - transparency and efficiency in reporting,
 - avoiding duplications,
 - attention should be given to strengthening the reporting capacity

Background

- Taking into account that the global indicators proposed on SDG may not necessarily be applicable to all national contexts; and that indicators for regional, national and subnational levels of monitoring will be developed at the regional and national levels, it is deemed important to create the ASEAN Working Group on SDG Indicators (WGSDGI).
- WGSDGI aims to address the statistical requirements in monitoring and reviewing the implementation of the SDGs in the AMSs and in the ASEAN, and the region's position at the global level.
- 1st WGSDGI Meeting : 19-20 September 2018 at ASEAN Secretariat, Jakarta

Outcomes of 1st WGSDGI Meeting

1. The initial list of ASEAN SDG indicators and its metadata to be included in ASEAN Statistical Indicators – Consolidated Template (ASI-CT) → 62 indicators
(https://1drv.ms/x/s!AtF2luYl8dOPgUX03C_PL9oGr2qf)
2. The schedule of data collection of SDG indicators in ASI-CT:
 - Round 1 : May-June 2019 → under NSO's purview
 - Round 2 : November-December 2019 → under Non NSO's purview
