Regional Course on Supply and Use Tables

20 – 24 January 2020, Chiba, Japan

Daily Programme

Topics	
Monday, 20 January, 2020	
Opening ceremony: Welcome and Introduction • Opening remarks by SIAP • Opening remarks by UNSD • Opening remarks by ADB • Group photo	
Coffee break	

Module 1. Importance of Supply and Use Tables (SUTs)
Presenter: (UNSD)
• Why
• Overview on SUTs
• Uses of SUTs
• Importance of SUTs
• Country practices (6 countries)
    o Do you compile SUTs? For which year did you compile SUT?
    o What are the dimensions of your SUTs?
    o How often do you compile and publish an official SUTs? What is your benchmark year? What are the main data sources used for compiling SUTs?
    o Is your SUTs used for benchmarking national accounts? Is it used for cross checking for GDP consistency?
    o What is your current methodology used for SUTs compilation?
    o What are the specific issues encountered during SUTs compilation?
    o How do you intend to improve your compilation method? What is your plan by end of 2020?	

Lunch break	
• Country practices (**continued**) (7 countries) • Open discussion	
Coffee break	

Topics	
Module 2. Overview of the statistical process for the compilation of SUTs **Presenter: (UNSD)** • Overview of the framework of SUTs including concepts related to the classifications and valuation (prices) used in SUTs. • Introduction to the statistical production process of SUTs including the institutional arrangements that can be established in support of the compilation of SUTs	
Tuesday, 21 January, 2020	
Module 3. Compilation of Supply Table **Presenter: (ADB)** **Session 3.1** • Conceptual framework behind Supply table and main data sources • Computing supply table	
Coffee break	
Module 3. Compilation of Supply Table (continued) **Session 3.2** • Case studies (Bhutan and Uzbekistan) • Specific issues in compilation • Open discussion	
Lunch break	
Module 4. Compilation of Use Table **Presenter (ADB)** **Session 4.1** • Conceptual framework behind the Use Table and the main data sources • Estimating use table	
Coffee break	
Module 4. Compilation of Use Table (continued) **Session 4.2** • Case studies (Fiji; Hong Kong, China) • Specific issues in compilation • Open discussion	
Wednesday, 22 January, 2020	
Module 5. Compilation of Valuation Matrices **Presenter: (UNSD)** **Session 5.1** • Compilation (and main data sources) of Valuation Matrices that allow for the compilation of SUTs in basic prices, namely, trade and transport margins and taxes and subsidies on products.	
Coffee break	

Topics	
Session 5.2 Compilation of Valuation Matrices (continued) • Case studies (Vietnam, Armenia) • Specific issues in compilation	
Lunch break	
Module 6. Compilation of Import use table and Domestic use table **Presenter: (ADB)** **Session 6.1** • Importance of compiling the Import use table and the domestic use table, their compilation methods and main data sources.	
Coffee break	
Session 6.2 Compilation of Import use table and Domestic use table (continued) • Case studies (Thailand, Maldives) • Specific issues in compilation	
Thursday, 23 January, 2020	
Module 7. Compiling SUTs in volume terms **Presenter: (ADB)** **Session 7.1** • Overview of the compilation methods of SUTs in volume terms.	
Coffee break	
Session 7.2 Compiling SUTs in volume terms (continued) • Specific issues in compilation • Open discussion	
Lunch break	
Module 8. Balancing SUTs **Presenter: (ADB)** **Session 8.1** • Overview of the balancing methods of SUTs. • Case Studies (Georgia, Brunei)	
Coffee break	
Module 8. Balancing SUTs (continued) **Session 8.2** • Specific issues in balancing SUTs • Open discussion	
Friday, 24 January, 2020	
Module 9. IT tools for the compilation of SUTs **Presenter: (ADB)** **Session 9.1** • General review of IT systems that are used by countries in support of the compilation of SUTs. • Case studies (Indonesia)	

Topics	
Coffee break	
Module 9. IT tools for the compilation of SUTs (continued) **Session 9.2** Open discussion	
Lunch Break	
Module 10. Other considerations for the compilation of SUTs **Presenter: (UNSD)** - Extension of Supply and Use Tables - Country intention to compile SUTs (Papua New Guinea, Samoa) - Digital SUTs - Open discussion	
Review and wrap up	
Closing ceremony: Awarding certificates
