

Webinar series on selected topics in Environmental-Economic Accounting [12-14 October 2021]

In this series of webinars, the focus was given to 2 SEEA topics that are of importance to the countries of Central Asia: water accounts and ecosystem accounts

The webinars were conducted in English with simultaneous interpretation to Russian, under the project funded by Russian Federation.

Q and A webinar session on 23 September 2021

[E-learning course on introduction to energy statistics and energy accounts](#)

Energy is essential to the economy and households. It is closely linked to food production, water use and climate change. Managing energy supply and use is a crosscutting topic that has been recognized as key to achieving the 2030 Agenda and the Sustainable Development Goals (SDGs).

The session was the last of the four webinar sessions organised during the course which was held between 30 August and 1 October.

E-learning course on international accounts |19 July-27 August 2021|

[Webinar session on 19 August 2021](#)

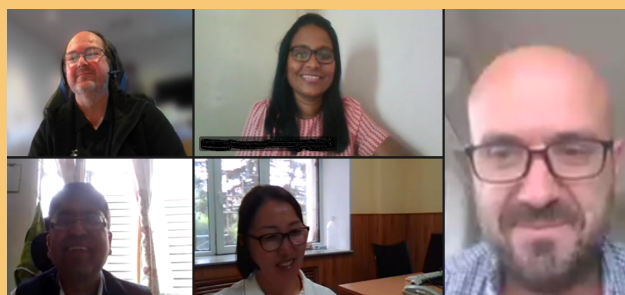

The webinar session held on 19 August invited Ms Heather Taylor-Strauss, Economic Affairs Officer at Trade, Investment and Innovation Division of ESCAP to talk about FDI trends, challenges and opportunities for Asia and the Pacific.
