

**Format for providing Information on the system of Evaluation adopted for training programmes delivered by National Statistical training Institutions**

**JAPAN**

**1. Name of Training Institution**

Statistical Research and Training Institute

**2. Address**

19-1 Wakamatsu-cho, Shinjuku-ku Tokyo 162-8668 Japan

**3. Name of Head of training Institution along with designation**

HIRAIKE Eiichi (Mr)

**4. Contact details of the head of training Institution:**

Email: dgpp\_ss\_intl@soumu.go.jp

Office Phone: + 81-3-5273-1145

Mobile: none

**5. Brief description of the training programmes** (Please indicate separately short-term (one to two weeks) and long term (more than two weeks), mode of delivery (face-to-face, virtual, eLearning etc.) and target audience (domestic (statisticians from NSO/NSS, Non-statisticians), participants from outside country etc.)

Long Term (1 course):

Comprehensive Statistics Course (3 months)

Mode of delivery: face-to-face

Target audience: national and local government officials

Short Term (28 courses):

Course	Duration	Mode of delivery	Target audience
Statistics for Beginners	4h (within 4 weeks)	eLearning (video)	National and local government officials
Practical Statistical Business Affairs for Beginners	2.5 days	Face-to-face (combined with virtual)	

Statistical Survey Design	5 days	Face-to-face (combined with virtual)	
Statistical Analysis	4 days	Face-to-face (combined with virtual)	
Uses of Statistics	3 days	Face-to-face (combined with virtual)	
Data Analyst Training	5 days	Face-to-face	National government officials
Seminar Targeting New Directors of Prefectural Statistics Divisions	1 day	Face-to-face	New directors of prefectural statistics divisions
Executive Staff Course	Half day	Face-to-face	New directors of national government statistics divisions
Statistics for Policy Making	3 days	Face-to-face	National and local government officials
Statistics for Policy Evaluation	2 days	Face-to-face	
Indices of Industrial Production	2.5 days	Face-to-face	
National and Prefectural Accounts	5 days	Face-to-face (combined with virtual)	
Input-Output Analysis	5 days	Face-to-face	
Basic Knowledge of Statistics	4h (within 4 weeks)	eLearning (video)	
Sample Design	2.5h (within 4 weeks)	eLearning (video)	
Society and Population Statistics	2 days	Face-to-face	
Population Estimation	5 days	Face-to-face	
Economic Statistics	3 days	Face-to-face	
Statistical GIS	2 days	Face-to-face	
Regional Analysis	4 days	Face-to-face	
Before Using Micro data	1 day	Face-to-face	
Programming for Micro data Analysis	1.5 days	Face-to-face	
Micro data Analysis	4 days	Face-to-face	
Utilization of Big Data	2 days	Face-to-face	
Data Science Seminar	1 day	Face-to-face	

Training for Staff of Local Government Statistics Divisions	1.5 days	Face-to-face	Staff of prefectural statistics divisions
Data Analysis Seminar	1 day	Face-to-face	
Seminars for School teachers and Other Educators	1 day	Face-to-face	School teachers and other educators

**6. Methodology adopted, and instruments used for evaluation** (e.g. survey, interview, observation; what type of information is collected and who are the main users of the evaluation results. Please attach a copy of the instrument used)

**6(a) Evaluation of the training course, lecturers, facilities etc.**

**6(b) Evaluation of participants after completion of the course** (pre and post completion of the course etc.)

Three survey forms are attached.

(a) Survey form for participants in face-to-face training courses

(b) Survey form for participants in online training courses

(c) Survey form for participants in livestreamed training courses regarding the learning environment

**7. How the results of the evaluation are analyzed and used?** (e.g. simple tabulations; used in annual reports of the organization; used for updating training; determining future areas of work)

The results of the evaluation are used for formulating future training plans, creating new courses, and improving the learning environment.

The results of the survey form for participants in face-to-face training courses are returned to the instructors in charge, who are asked to use them as a reference for improving their lectures in the future.
